

IOSH Working Safely

One Day Course

Course introduction

Working Safely is for people at any level, in any sector worldwide, who need a fundamental understanding in the essentials of health and safety. It gives everyone at work an understanding of why they must 'work safely' – and does it in an enjoyable way. This course is a nationally recognised and respected certificate and is designed and quality-controlled by IOSH, the Chartered body for health and safety.

Accreditation

Written and practical tests are included in the day's training and on successful completion of the course you will be awarded with an Institute of Occupational Safety and Health (IOSH) certificate. Please be aware that it can take 2-3 weeks for IOSH to process course results and issue IOSH accredited certificates.

Course outline

This is a completely different approach to safety and health training: a high-impact programme designed to be fun and inclusive. No jargon, no legalese – just inspirational learning that's enjoyable, stimulating and effective. Working Safely covers:

- An outline of occupational safety and health
- Defining hazard and risk
- Identifying common hazards
- Improving safety performance

About IOSH

IOSH, a Chartered body, is the guardian of health and safety professional competence. The Institution regulates and steers the profession, maintaining standards and providing impartial authoritative guidance on health and safety issues.
